## Muhurta Chart's Salient Points:

In a Griha Pravesha Muhurta Chart [as in any Muhurta Chart, for that matter], the Asdt H [First House] must be strong, as it is in this Muhurta Chart. The First H, is like the heart or 'the nucleus' or the 'essence' of the Muhurta Chart. Here Ve, typically signifying luxurious homes, comforts and luxuries, is the strong Asdt Lord. Ve also signifies marital happiness, marital fulfillment, wealth, and women. This is the ideal Asdt H, for a woman's home, especially when wealth [Sri] adorns that home. Like Ve, the Mo is another Cosmic Benefic Feminine Energy, and Blesses the IVH MEP, thereby fortifying the IVH. Thus the strong Planets of this Muhurta Chart are:

Ve, [Divine Mother's Energy] ruling the Asdt H [First House], Su, ruling the XIH of income and gains and friends, and the placement of the Su in the IIH of status, accords royal status to this House,

Mo, ruling the XH of action, being placed on the MEP of the IVH, fortifies the Home life and makes hospitality and motherly care, the hall-marks of this abode.

The running Dasa-Bhuktis are also very favourable, as can be seen from the Table of the Dasa-Bhuktis-only the Su and Mo Dasas will be running for the next 11 yrs.

These facts are borne out by the Table of Planetary Strengths, shown below:

The Su, Ve, and the Mo [though not 100% strong], are the jewels of Grace of this Muhurta Chart.

### Weaknesses of this Muhurta Chart:

Ju, Ma are both debilitated and thus weak. Even Sa, badly-placed in the XIIH is seen to be weak. All these three Planets are Functional Benefics [FBs]. Sa, represents servants, or house-help in the US and the paucity of Grace for this aspect of life, being very much a part of the cultural ethos of the US; the weakness of Sa, representing servants, may not be so serious a handicap.

The weaknesses of the two debilitated FBs, namely Ju and Ma, is compensated to some extent, by the Blessings of the Mo, to the two Hs, in which Ju and Ma are placed. **Pl note that at this time, it is impossible to have a Griha Pravesha Muhurta with Ju and Ma strong. Ju becomes strong only in Jan 2010, and Ma, becomes strong only in May 2010.**

### **Griha Pravesha Muhurta:**

**Day: November, 22<sup>nd</sup>, 2009, SUNDAY,**

**Place: Dallas[96°W48', 32°N47'], Texas.**

### **Muhurta Window:**

**The peak of the Muhurta falls between [5:02AM and 5:07AM], whereas, the Pooja can begin at 4:30AM itself.**

It is important that God [Sri Sri Amma Bhagavan] should be invoked, though an Aarti, exactly, during the peak of the Griha Pravesha Muhurta, but for an hour or at least for half an hour prior to this peak, naivedyam, in the form of sweets may be offered to Sri Sri Amma Bhagavan, and a lamp may be lit, signifying our Samkalpa, say at 4:30AM. Some Bhajans may be sung, *Vedic* Chants can also be played, for half an hour prior to the peak **and, the Mula Mantra may be chanted 108 times, slowly with devotion and sincerity, with the Samkalpa that, this should be an abode of peace, and fulfillment, wherein the owner and her husband and parents can live in peace, for their benefit and for the benefit of the world.**

The Turyamsa Div Chart has also be checked, to ensure that the IVH Div Chart, namely the Turyamsa is giving us a good augury for Grace.

**Time Zone in Dallas on Nov 22<sup>nd</sup>, 2009.**

Note that the Time Zone on Nov 22<sup>nd</sup>, 2009, in Dallas is CST

[6 Hrs West] and not the CDT[5 Hrs West], as was the case for the Oct 15<sup>th</sup> Muhurta.

So, on Nov 21<sup>st</sup>, call the Texas Time Service and synchronize all clocks and watches at Home with the CST.

Only then, not even one Minute of the Muhurta Window will be wasted, but used fully, for our Benefit.

The Peak [Muhurta Window] is the Bija [Seed] and what comes out of it is the Vriksha [Tree, or the fullness of life in that abode].
