“I am eternally grateful to Guruji for the incredible classes he taught on: Brihat Parashara Hora Sastra Astrology. After learning the dependable and predictive principles of the Systems Approach[SA], Vedic astrology sutras gave me a completely new perspective. It was refreshing to learn Guruji’s descriptions of various principles and understanding of the planetary movements in each chart and how they impact us. The Vedic perspective of chart analysis are unique and empowering.

“In every class, Guruji made us think and interpret the charts. After each class I always walk away feeling that I understand the chart of myself and others better than before. My chart reading on my health issues using the Vedic principles was very insightful. It gave me clarity and deeper understanding into what I was going through and set intention and mind in the right direction to my healing.

“Guruji shared with us with his sensitivity, the several significant charts of famous people with his vast knowledge of Vedic Astrology and the Systems Approach[VA]. All the 80 classes that Guruji taught us were free of cost and we all had the opportunity to interpret and discover our truths from our perspective. I can’t even begin to thank you for the incredibly powerful knowledge that we got to learn on Vedic Astrology during all the extensive classes”.
