### Note:

Among the significations of the Jup-Sat Conjunction mentioned, I forgot to add a couple of points which I had jotted down, but which, because of my 'hurry', I ended up omitting.

- (i) The Nature cultures of the Native Americans, Taoism, and the ancient cultures of Mexico, Peru, Egypt, China and India, all of which had a closeness to nature, will come to the fore again during the Earth age.
- (ii) Earth also signifies, '*self*' (ahamkara), whereas, Fire signifies intellect, Water signifies Feelings, devotion and religious faith, while Air signifies, new ideas in all spheres of life. So, the ills of mankind, centered on the *self*, the knowledge of this *self*, as well as the pathologies of the *self*, and finally the death of the *self*, will also come to the fore in this Earth Decad.
- (iii) As the work of the world-teacher Sri. J. Krishnamurti, is centered on the *self*, & on the paramount importance of understanding and transcending it, in this Earth Decad, the as yet undiscovered depth and beauty of the world-teacher's work & his sensitivity to Nature, will also bloom.
- (iv) In this same Earth Decad, Nature poets, Nature mystics, Naturalists, Ecologists, Conservationists, Agriculturists, Silviculturists, Farmers and Workers are going to be able to bring their work to greater fulfilment.
